CORNELL WON THREE.

Seconds Were Pennsylvania, Syracuse and Georgetown.

Lynching at Wilmington—Farmer Shot in Field—President at Oyster Bay. Reply to Tulloch Charges—State Press Association—Shamrock III Beat Old Boat. With three great crews that rowed in almost faultless form Cornell swept the river at Poughkeepsie and won all three events forming the intercollegiate boat races. Varsity 4-oared race 2 miles—Cornell first, time 10 minutes 34 seconds; second, time 10 minutes 35 4-5 seconds; third of a length over Pennsylvania second, time 10 minutes 35 4-5 seconds; fifth, Wisconsin, time 10 minutes 55 3-5 seconds; fourth, Columbia, time 11 minutes and 14 seconds. Best previous time in four-oared race 10 minutes 31 1-5 seconds made by Pennsylvania in 1900. Freshman race. Eight-oared, two miles—Cornell first, time 9 minutes 18 seconds; Syracuse second, time 9 minutes 22 1-5 seconds; Wisconsin third, time 9 minutes 32 seconds; Columbia fourth, time 9 minutes 41 seconds; Pennsylvania fifth, time 9 minutes 45 seconds. Best previous time 9:19 1/2, made by Yale in 1897. Varsity race, four miles, eight-oared—Cornell first, time 18 minutes 57 seconds; Georgetown second, time 19:27; Wisconsin third, time 19:29 2-5; Pennsylvania fourth, time 19:33 3-5; Syracuse fifth, time 19:36 2-5; Columbia sixth, time 19:54 1-5. Best previous time 18:53 1-5 made by Cornell in 1901. The Syracuse university crew took such close second honors in the freshman race that for the last half mile it was a serious question whether her boys would not pull to victory. Georgetown university in the varsity race, while finishing a very bad second to the phenomenal crew put in the race by Cornell university, walked away from the other four crews in the race, old timers with the exception of Syracuse, in a manner that made the rowing sharps simply throw up their hats for joy.

A Northern Lynching.

A mob of a couple of thousand men Monday night at Wilmington, Del., broke into the county workhouse bent on lynching George White, the negro who was held on a charge of assaulting and killing Helen Bishop. The guards defended the place and a boy and a man, members of the mob, were shot and slightly injured. The guards played a strong stream of water from a hose into the crowd, which stubbornly held its ground and declared they would get the negro. The negro was taken to the scene of the crime. He there confessed to having assaulted the girl. He was then burned to the stake and his body riddled with bullets. The excitement attending the gruesome tragedy enacted Monday night when George F. White the negro murderer of seventeen-year-old Helen S. Bishop, was burned at the stake, has subsided. The swift and dire punishment meted out to the perpetrator of the crime is the sole topic of conversation but the details are calmly rehearsed. During the show of resistance made by the police and the jail officials when the mob attacked the New Castle county workhouse, Peter Smith, a 12-year old boy, was shot in the back. The bullet which struck him evidently came from a pistol in the crowd, as it is claimed by the prison warden that his guards fired over the heads of the lynchers. Smith died Wednesday afternoon. Another young man, whose name is unknown, was slightly injured. The only other persons known to have been hurt was a man who was kicked by White when the negro attempted to escape from his torturers, and another man who had his arm burned. Mrs. Bishop, mother of the murdered girl, is in a state of extreme nervousness. White was put to death within a few hundred yards of the Bishop house and the glare of the fire and howls of the mob could plainly be seen and heard at the house.

Farmer Murdered in Field.

The Ontario county authorities have arrested and lodged in county jail at Canandaigua Edward Sexton, 35 years of age, on the charge of killing with a shot gun, on the evening of Tuesday, Thomas Mahaney, Jr., a fellow farmer, at their home, in Farmington. In 1899 Sexton was arrested and convicted on a charge of assault in the third degree, for shooting at Thomas Mahaney, Sr., the father of the man just murdered. He served 50 days in jail for the crime, although he broke jail once, but was recaptured. At that time, it is charged, he swore vengeance on the Mahaney family. The murder was a foul one, the assassin creeping up behind Mahaney while he was drilling beans in the field, just out of the sight of his family, who heard shots, but suspected nothing wrong till the team came running in from the field. The body was found lying on its face with a terribly mangled skull, the entire charge of shot piercing the left eye, ear and temple. The murder aroused the entire community and bloodhounds were taken to the spot by the authorities, but the heavy rainfall hampered the dogs. Sexton was found at his home later. The officers who went

to serve the warrant had to batter down Sexton's door to get at him. He was dragged out of his house and went quietly with the officers.

President at Oyster Bay.

President Roosevelt passed a quiet Sunday with his family at his Sagamore Hill home. It is announced by Secretary Loel that the president will receive few callers at Sagamore Hill this summer and those who hope to see him will be obliged to make engagements through Mr. Loeb in advance of their arrival at Oyster Bay. The president will devote his mornings to the transaction of executive business and afternoons to recreation and rest. During the afternoons, too, he will receive such callers as may have engagements with him or those whom he may summon to Sagamore Hill. The executive offices selected for the presidential force this year are much more commodious and convenient than those occupied last year. They consist of six rooms in the second story of the Moore block and are well arranged and admirably adapted to the purposes of the executive staff. The desks and other furniture in the offices are chiefly those which were used in the executive offices of the old White House. President Roosevelt will spend no time in the offices, his work being done in his library at Sagamore Hill. The offices are in direct communication by telephone with Sagamore Hill.

Bradstreet's Review of Trade.

Crop, trade and labor conditions still present some irregularities, but six months' trade returns point to actual business having been better than a year ago, and the situation, as a whole, shows favorable features predominating as to the future. The iron and steel situation seems to have improved slightly. Some large strikes have been for months ended, and the two leading troubles are those of the textile workers at Philadelphia and the building hands at New York. The disorder at Richmond is due to a strike of a relatively insignificant number of employees. High prices for raw materials, notably cotton, constitute a drag upon future business, the full effects of which cannot yet be measured until the turn of the year, when the crop situation becomes more clearly defined. The situation, in fact, may be said to be a waiting one, but confidence in the future is still predominant. Business failures for the week ending with June 25 number 171 against 153 in the like week of 1902.

Reply to Tulloch Charges.

Charles E. Smith, succeeded as postmaster general by Mr. Payne, has made public his reply to the charges made by Mr. Tulloch, in connection with the postoffice investigation. Mr. Smith's letter explains that all the transactions described in the Tulloch statement as irregular were examined and a report was made to him, which gave the facts and the explanations in each case. These explanations, he said, had never been challenged. The explanations of the Tulloch charges, Mr. Smith says, have been on file since 1889. Most of the explanations are that military exigency justified the course taken.

Yale Won All Three Races.

For the first time on record Yale triumphed over Harvard in all three of their boat races in the annual regatta on the Thames at New London, Thursday. The wearers of the blue won the eight-oared varsity race by three and one-half boat lengths, the freshman eight-oared race by two and a quarter lengths and the varsity four-oared race by one and a half lengths. In all three races Harvard put up a memorable fight and went down to defeat after gallant struggles in which her boys rowed out the last ounce of their strength.

AMERICANS WINNERS.

Success of Our Men-of-Wars men at Kiel Races.

Ensign Steele of the San Francisco Won Race For Large Launches Lieut. Mustin of the Kearsarge Was Ahead But Was Fouled by an Outsider and Was Third. Kaiserlicher Yacht Club, Kiel, June 30.—The American men-of-war men won two first, a second and a third in yesterday's races against the boat of the German fleet. The American had five boats entered in four events, while the Germans had 37 and the American crews were not familiar with the course and had not special training for the occasion. The closest contest and the one which attracted most attention from the Germans was that between the large launches. Lieutenant Mustin of the Kearsarge led after the first quarter of a mile and gradually increased his lead until near the finish he was one eighth of a mile ahead of the San Francisco's launch. Then, what was probably a civil war on the water, that was running oblique ly, yelled something unintelligible to Lieutenant Mustin and a few moments later the stranger's bowsprit ran through the sail of the Kearsarge's launch, tearing away part of it. Before the two boats could be disentangled the San Francisco's launch passed and 100 yards behind her the launch of Kaiser Wilhelm Der Grosse Lieutenant Mustin and Ensign Steele both outdistanced the German boats in turning the mark buoys and they gained several seconds on each turn. The German crews, although they cheered the American winners could not help feeling vexed, because they had been training for a fortnight for this event. The emperor presented the prizes to the winners at the yacht club at night in the shape of personal gifts to the officers commanding the launches. Ensign Steele received a silver cup "I hope you will drink many a bumper out of it," said Emperor William handing it to him. Lieutenant Mustin and Midshipman Rowan, who sailed the Chicago's small cutter received large silver cigarette boxes. Lieutenant Patrick W. Hourigan of the Kearsarge was entered in the sailing cut competition, in which if German cutters took part, and came it fifth. The Chicago's small cutter competed in another race and came in second being beaten by eight lengths by a boat manned by men from the emperor's yacht Hohenzollern. The American squadron will leave this evening.

Admiral Evans Wants More Marines.

Washington, June 30.—Rear Admiral Evans, in a report to the navy department, has again called attention to the necessity of maintaining an adequate force of marines at Olongapo in the event of an emergency in China. He regards the internal unrest there with apprehension and recommends that the force of marines at Olongapo be increased from 1,000 to 1,500. The marine corps is 500 short of its full quota and recruiting will be continued on an active scale this summer in the effort to secure the additional 500 men for dispatch to the Philip pines in the autumn.

Enforcing Law in Jackson.

Jackson, Ky., June 30.—As an evidence that General Murray's iron handed policy in backing up Police Judge Cartwell is working well here Tom Tarpe, arrested Saturday night for shooting in the town limits, was fined \$20 and costs. Sandy O'Connor and Joe Palmer, who broke up a religious worship two miles from town were fined \$15 and costs each by Judge Hargis. This is unusual in Jackson. Murray's orders have cowed the lawless element and not a shot was fired on Sunday.

SHOT BY HIS HOUSEKEEPER?

That is the Theory of the Police Regarding the Injuries of J. L. Rosso.

New Brunswick, N. J., June 30.—John L. Rosso, Jr., is likely to die. He was shot through the abdomen on Friday morning at 2 o'clock at his home at Kingston. At 4 o'clock that morning Miss Flossie Fawcett, his housekeeper, gave the alarm. Both she and Rosso have since declared that some man who climbed into Rosso's room by means of a ladder fired the shots. Their stories do not agree, and the county prosecutor does not believe that anyone was in the house at the time of the shooting besides themselves. The woman is in jail here, and is under medical care. Miss Fawcett has lived with Rosso for three years, going to Kingston, where the shooting took place, from New York. She refuses to tell anything about her family. She is of good address. She declares that she screamed for help after the assailant fired three shots. Aaron Hurley, who lives within 400 feet of the Rosso place, declares that he heard one shot and that he heard no screams. There is no evidence in the room that more than one shot was fired. The bullet was found in the hallway, several feet from the bedroom where Rosso says the shot was fired. The bullet is of the same calibre as those used in Rosso's revolver. The revolver contained two cartridges in the afternoon before the shooting. When found afterward there was but one cartridge in it. The police believe that in the two hours that intervened between the shooting and the alarm to the neighbors Rosso and the woman became reconciled, and that they planned the story of the night assault.

UNUSED FASTENERS.

Two and a Quarter Tons of Groff Devices Sent to Milwaukee. Milwaukee, June 30.—Evidence bearing upon the postal investigation came to light in the Milwaukee postoffice. Stored away in one corner of the basement is a big pile of Groff fasteners that were sent to Milwaukee for some unknown reason and without requisition, about 14 years ago. The fasteners, of which there are two and one quarter tons, will probably never be used, unless shipped to Washington. None has been used here since the day they were received. The fasteners came during the early years of the late Postmaster George W. Porth's term of office. There are 1,500 sets and the contract price was \$125 a set. There is also stored in the basement a lot of galvanized iron mail boxes made in Michigan. They were received about two years ago, without requisition.

Concord, N. H., June 30.—In the afternoon Mrs. Eddy received her visitors at Pleasant View, her home. It is estimated that 12,000 visitors were in the city.

The car was crowded. Four women were among the wounded. The negro made his escape.
